## WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY

International application No.

PCT/SE2004/001211

Box	No. I	Basis of this opinion
1.	which it	gard to the language, this opinion has been established on the basis of the international application in the language in was filed, unless otherwise indicated under this item.  This opinion has been established on the basis of a translation from the original language into the following language,  , which is the language of a translation furnished for the purposes of international search (under Rules 12.3 and 23.1(b)).
ٔ ا	claimed	gard to any nucleotide and/or amino acid sequence disclosed in the international application and necessary to the invention, this opinion has been established on the basis of:  of material  a sequence listing  table(s) related to the sequence listing
1	o. forma	t of material in written format in computer readable form
	c. time	of filing/furnishing  contained in the international application as filed.  filed together with the international application in computer readable form.  furnished subsequently to this Authority for the purposes of search.
3.		In addition, in the case that more than one version or copy of a sequence listing and/or table relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.
4.	Addition	al comments:

## WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY

International application No.

PCT/SE2004/001211

Box No. V	applicability; citation	s and explan	3bis.1(a)(i) with regard to novelty, inven ations supporting such statement	tive step or industrial
1. Statemen	ıt			
Novel	ty (N)	Claims	1 - 20	YES
	•	Claims		NO
Inventive step (IS	tive step (IS)	Claims	1 - 20	YES
		Claims		NO
Industria	rial applicability (IA)	Claims	1 - 20	YES
		Claims		NO NO

## 2. Citations and explanations:

The documents cited in the International Search Report represent the prior art. The claimed invention stated 20 is not anticipated by these None of the documents. documents or any relevant combination of them reveals an arrangement and a method for controlling a combustion engine described by these claims.

According to the arguments stated above, the invention claimed in claims 1-20 is novel and considered to involve an inventive step. The industrial applicability of the claimed invention is obvious.
